

Web Hosting

How to limit the outgoing mails from a domain (per hour) from your plesk panel?

- 1) Login to your plesk control panel.
- 2) Go to 'Tools and Settings' in the 'Server management' Section.
- 3) Under the 'Mail' section, click 'Mail server settings'.
- 4) Under 'Server Wide Mail settings' , go to the section ' Switch on limitations on outgoing email messages'.

Here you can set the outgoing mails per hour for the domains and

from various subscriptions.
