How to Purchase RAM Upgrade?

There are a few steps you can take to purchase a RAM upgrade and here are steps that you should take:

- 1) Log into your control centre at <https://control.bytehouse.co.uk> and follow the steps given below
- 2) Ensure that you select the correct "subscription" on the top right corner of the control centre screen
- 3) Under "Store" click on "Buy Resources"
- 4) Scroll down to "SLM memory limit". Against "New Limit" click on the arrow on the right side to increase the limit of RAM to the next level in "MB"
- 5) Click on the button "Next" on the bottom right corner of the same window to proceed

If you need further assistance regarding RAM upgrades, contact our experienced representatives at www.bytehouse.co.uk/contact.
